This is not a test. It's a state of emergency! A full-blown national state of emergency!

Yes, that's right, once again, we need to dispense with the rule of law and take a series of emergency measures in order to save "democracy," or "freedom," or "to remedy the distress of the people and the nation," or "protect the people from a respiratory virus," or a "woke mind virus," or "deep state agents," or "the terrorists," or "bureaucrats," or "insubordinate judges," and "Make America Great Again!"

Fortunately, God has personally appointed Elon Musk, the multi-billionaire, Military-Industrial Complex embedded, transhumanist, global-capitalist oligarch, to serve as a Superhero-like savior, and rescue the American people from Evil! Or, OK, technically God personally appointed Trump, but Trump personally appointed Elon, which God knew he would do, being omniscient, and omnipotent, and so on. So, basically, Elon has *carte blanche* from God to take whatever emergency measures to save America he deems appropriate, and anyone who stands in his way is "corrupt," and "evil," and an "enemy of the state," who deserves to be arrested and prosecuted, and imprisoned, or at the very least harrassed and intimidated.

For example, Paula Kerger, CEO of PBS, who is being hauled in front of Elon's DOGE Subcommittee to explain why PBS failed to conform to official "reality" as determined by Elon, and the ADL, and the MAGA Ministry of Truth.

President and Chief Executive Officer
Public Broadcasting Service
2100 Crystal Drive
Arlington, VA 22202-3785

Dear Ms. Kerger:

The Subcommittee on Delivering on Government Efficiency (Subcommittee) is planning a hearing on federally funded radio and television, including its systemically biased content. The Subcommittee is concerned by Public Broadcasting Service's (PBS) blatantly ideological and partisan coverage and looks forward to your participation in our upcoming hearing. The Subcommittee seeks to better understand PBS's position on providing Americans with accurate information. Please provide the Subcommittee with your availability to testify at a hearing during the week of Monday, March 3rd or the week of Monday, March 24th.

Recently, PBS implied that Mr. Elon Musk made a fascist salute while addressing an inaugural celebration hours after President Donald Trump was sworn into office.[1] The characterization was clearly false. According to the Anti-Defamation League, a group that focuses on combating antisemitism:

> It seems that @elonmusk made an awkward gesture in a moment of enthusiasm, not a Nazi salute, but again, we appreciate that people are on edge.
>
> In this moment, all sides should give one another a bit of grace, perhaps even the benefit of the doubt, and take a breath…[2]

This sort of bias betrays the principles of objective reporting and undermines public trust. As an organization that receives federal funds through its member stations,[3] PBS should provide reporting that serves the entire public, not just a narrow slice of like-minded individuals and ideological interest groups.

Suppressive Persons like Paula Kerger and the staff of the Public Broadcasting System cannot be allowed to interpret events however they interpret them. We're in a state of emergency! Screw all that freedom of speech and the press stuff! How can Elon rescue America if people are free to contradict what he says?! After all, the American people elected Musk and Trump so that they could dictate what is "true," and punish anyone who disagrees with them!

OK, sure, some of what they say isn't true, or not exactly true, or is shameless lies, but sometimes you have to lie to people to save them from evil, because … well, people are stupid, so you have to bombard them with official propaganda and lies and whip them up into frenzies of fanatical hatred of your official enemies.

For example, the "fifty-million-dollar USAID terrorist condom bomb" story …

… which, of course, was a load of ridiculous bullshit. But that doesn't matter, because the primary purpose of official propaganda is not to trick anyone; it is to disseminate talking points to your followers who will repeat whatever preposterous lies you make up like a bunch of lobotomized parrots.

Or the “Reuters was paid millions for social deception” story, which was also bullshit, but which Elon and his minions got their legion of morons to mindlessly repeat, over and over, and over again, on Elon’s social media platform, X … which, in case it hasn’t quite sunk in yet, is a propaganda apparatus of the US government, as in it’s literally owned and operated by a Military-Industrial Complex embedded, global corporatist government official.

Reuters was paid millions of dollars by the US government for “large scale social deception”.

That is literally what it says on the purchase order! They’re a total scam.

Just wow.

But whatever. Who gives a shit what’s true? We’re saving America from Libtardism, and deep-state agents, and the transgender Communists! There is a fucking war on! Screw

the truth!

Oh yeah, and also, screw the rule of law and the Constitution of the United States! If the judges won't obey Elon's orders, impeach them! They're destroying America!

And if journalists won't conform to MAGA Newspeak, ban them from attending our glorious leaders' events! Unperson them! Make examples of them! Unleash the basic pleasure model on them!

Also, the arts! The arts are full of perverts! We need to get the whole art thing cleaned up! Trump firing the board of the Kennedy Center and installing himself as Chairman was a good start, but if we're going to Make America Great Again, we're going to need to get a little more radical. Perhaps a new Degenerate Art exhibition! Elon could name one of his coder kids "National MAGA Minister of Culture"! There must be a database of all the degenerate artists and writers and intellectuals somewhere!

I know, you're thinking this all sounds a bit drastic, but remember, we're in a state of emergency! It's a crisis! There's no time to stop and think! Or question our leaders or The Science, or whatever! The woke mind virus is spreading like wildfire!

Plus, the shock-and-awe phase won't last. It's just a few weeks to flatten the curve, or maybe a few months, or until Elon and his buddies develop an anti-woke-mind-virus "vaccine," or an anti-libtard Neuralink implant, or we all fly off to Mars, or whatever.

In the meantime, the most important thing to do — apart from mindlessly parroting whatever lies Elon and his sycophants post on X — is to get down on your knees and thank him, and his consortium of global-capitalist behemoths, and Saudi royals, and assorted oligarchs, for literally saving freedom of speech, and America, and freedom, and anything else you can think of to grovelingly thank him for!

If you’re not sure how to do that properly, my old friends Jeffrey and Chris can help!

"I have friends who were like, 'Oh, he's putting it on @elonmusk.' I kind of get tired of it. Where's your gratitude, for this guy spent a lot of money on a useless, worthless, fed platform and liberated it. And it's allowed us to reach the public. And, arguably, that's what

Oh, and, sorry, I lied. This is a test. Just like the “Covid pandemic” was a test. Pretty much everything in life is a test. A test that we take, and then grade, ourselves. How are you doing on this one so far?
